

Barron Wood Distribution Limited

# Tailored Logistics for Tomorrow's Supply Chain

Flexible, scalable logistics solutions that  
keep your business moving

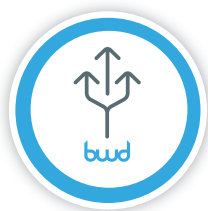

# Delivered with Care, Load after Load

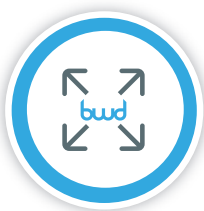

We combine operational excellence with a family feel that sets us apart. With over 30 years of industry-leading expertise, a dedicated and proactive team, and a trusted network of partners, we act as an extension to your business and are fully committed to your success.

With our modern, asset-light business model and access to our nationwide and European transport networks, you will benefit from cost efficiency, flexibility, unmatched scalability and adaptability to seasonal or fluctuating demand.

We use the latest technology and data-driven decision-making to optimise efficiency and reduce waste. Whether you are looking for contract logistics or a network transport solution we can ensure optimal performance and seamless integration, delivering transport solutions tailored to your specific needs.

# Contract Logistics

Contract Logistics provides stability, scalability, and operational alignment with your business needs, whatever changes may occur within your business or industry.

Our bespoke Contract Logistics solutions are scalable to meet your long-term needs. Each operation is designed to align with your supply chain, providing stable and reliable service levels. No matter how complex your needs, our solutions are designed to ensure service continuity. This approach guarantees operational consistency, even during fluctuating demand cycles.

A collaborative approach means we deliver more than transport—we integrate into your operations. We work closely with you to refine and evolve our service, ensuring it stays aligned with your business goals.

We regularly review and adapt our solutions, incorporating feedback and innovations to deliver ever-improving value. Our solutions are built to maximise efficiency, reduce waste, and enhance sustainability. From route planning to resource allocation, we ensure optimal performance.

## Why our customers like working with us

Sustainability

Continuous improvement

- **Cost efficiency:** We deliver transport solutions that provide value without overcommitting financially
- **Industry-specific solutions:** Our tailored transport services can align with the unique requirements of each sector that you operate in
- **Dedicated fleet:** We provide access to a dedicated fleet that offers specialised vehicles and liveried options that can be flexed to meet demand
- **Customer support:** Our dedicated customer service team cares about your business, delivering a high-quality service that focuses on proactive communication and problem-solving
- **Supply chain integration:** We can quickly and seamlessly integrate with existing logistics and production schedules to ensure continuity
- **Transparency:** We clearly and consistently communicate regarding costs, timelines and service updates.

# UK Transport Services

We move loads the length and breadth of the UK, either through our own fleet or through partnerships with our trusted haulage providers.

As our network is a truly national solution, we offer complete flexibility without regional restrictions. In contrast to many regional operators, we have transport available when and where you need it.

For part loads, you can benefit from sharing vehicle space with other customers' goods on a pay per use basis. Our pricing is transparent and is currently based on a transactional model so you only pay for the capacity you use. We take responsibility for driving the efficiencies of our fleet and network.

We can also provide cost effective movement of smaller consignments with our shared-user service.

## Why our customers like working with us

24/7 operation

Full and part loads

National UK coverage  
for next day orders

Strong regional  
knowledge

Last minute and seasonal  
volume increases

99.3% OTIF

We continually invest in our team, our facilities, our fleet and our partner network to enable us to deliver the best service to our customers

## Traction Services

bwd

We provide traction only services on a shift or trip basis, using our trailers or, if preferred, your trailers. This provision can be on a contractual or 'spot hire' basis to complement your operations or to support seasonal peaks. It can be made available at short notice (less than 6 hours for most areas of the UK) to cover day or night-time duties 7 days a week.

Our traction service is swift, flexible and scalable from a single truck day hire to a 100 strong dedicated fleet with ongoing personalised customer service.

Our skilled and knowledgeable national traction services team can co-ordinate and deliver loads 24 hours a day, 7 days a week locally to anywhere in the UK.

We have an extensive induction, compliance and driver training programme that offers customers assurance and flexibility. Drivers are trained to operate a range of different vehicles including double deck and refrigerated.

## Why our customers like working with us

24  7 

24/7 operation 52 weeks per year

Provision of unit, driver and trailer if required

Lead time of 4 hours or less

We work with all of the top UK grocery retailers

DC planning and scheduling support

Experienced and trained drivers

Range and availability of trailers

bwd

Ultimate flexibility and scalability with the option to use this resource as and when required. Database of retailer approved drivers with store delivery experience

# Construction

Our Construction Division was established in 2014 and has grown significantly over the last 10 years. We have a highly experienced team of transport staff and drivers with extensive knowledge and expertise of the industry.

We operate a national network of specialist mechanical off load (MOL) vehicles delivering heavyside building materials on behalf of some of the UKs leading building material manufacturers and also builders' merchants.

Our ability and track record for managing seasonality peaks and troughs to ensure our customers volumes and requirements are met at all times is well proven.

We have a strong culture of prioritising health and safety and legal compliance with comprehensive processes and procedures ensuring we operate to the highest industry standards.

Our goal is to continuously improve in all that we do and our dedicated team are committed to delivering exceptional service standards with a bar that is constantly rising.

## Why our customers like working with us

- **Our construction team has over 100 years combined knowledge and experience of the sector and operating specialist vehicles**
- **Experience of working with market leading blue chip companies:**
  - Bricks, block, roof tile and landscaping product manufacturers
  - Builders merchants, independents and nationals
  - Brick factors
- **Rigorous compliance procedures with an excellent safety record**
- **Large dedicated fleet of hauliers with construction experience and nationwide coverage**
- **Operate a range of specialist vehicles, including:**
  - Articulated cranes
  - Drawbar cranes
  - Drop and Go/Urban cranes
  - Moffett Mounty/Manitous (Demountable forklifts)
- **We carry a wide range of building materials including:**
  - Bricks
  - Blocks
  - Tiles
  - Landscaping products
  - Timber

## European Freight Services

Our European team manages the movement of goods throughout Europe for UK import and export as well as cross-border throughout Benelux, France, Germany, Italy, Spain and Ireland.

Our large carrier network, offering specific routing and shipping to meet your requirements, can accommodate consignments from 1 loading metre up to a full trailer load.

Groupage services depart to all EU markets on a daily basis and non-EU locations are serviced at least twice weekly.

Subject to local country movement restrictions, FTL & LTL consignments can be collected and delivered from anywhere within the UK and Europe seven days per week. For urgent consignments up to 2,500kgs we have an express service using dedicated vans to collect and deliver anywhere within the UK and mainland Europe.

For added peace of mind we offer marine cargo insurance at extremely competitive rates. This insurance covers against accidental damage and other risks for the full value of your goods.

### Why our customers like working with us

- We can scale to your needs from low volume to extremely high-volume deliveries throughout Europe
- We can handle over 200,000 consignments a year including special loads through our extensive network of European road freight partners
- We deliver part loads and groupage across EU and manage deep sea movements to US, Asia and beyond
- We have a wide range of trailer types including tautliner, tilt, box van, flat trailers, mega trailers, walking floor and refrigerated
- We have experience of transporting ADR HAZ goods for waste mills and recycling plants
- Our impressive experience in all aspects of EC regulations, local country laws and customs
- We have specialist colleagues who are fluent in 5 key European languages.

Our large carrier network, offering specific routing and shipping to meet your requirements, can accommodate consignments from 1 loading metre up to a full trailer load

# Customs Management

bwd had the foresight to establish a strong position with our customs service well in advance of the end of the Brexit transition period. Our in-house systems and trained teams can handle all UK customs requirements.

To alleviate Post Brexit delays incurred around waiting for customs, we put the work in ahead of time to get all necessary clearance information so that when loading day comes, we can provide documents within an average return time of well under an hour.

We have also built relationships across the EU to enable us to offer a complete end to end service. We can manage documentation requirements whether it is a simple Export Invoice or completion of all the documents necessary for a complicated Letter of Credit.

As well as offering our customs service to transport customers, we can also offer it as a standalone service to non-transportation customers, saving you time and reducing your costs.

We offer a wide range of services to meet all our customers' needs and operate a fully electronic system meaning that drivers do not have to wait on site for physical documents.

## Our services include:

- UK import and export documentation
- EU import and export documentation
- T1 documents
- Fiscal representation in UK and EU
- Full Frontier Declaration (NI)
- GMR
- UK deferment account facilities
- ATA Carnet for temporary exports
- Fully electronic documentation.

## Why our customers like working with us

- We can custom build our offering to suit your requirements or those of your customer
- We can offer a full end to end service including transport and UK & EU customs or we can just handle a single element of the customs
- We deliver time and cost savings with our full customs package - including import and export clearances, management of T1 documentation, duty deferment and streamlining EU movements by removing the need for custom stops
- Our dedicated and experienced multi-lingual customs clearance team takes the hassle out of import, export and cross-border deliveries
- We produce inhouse export documents and support your team with import declarations and commercial invoices
- Our impressive experience in all aspects of EC regulations, local country laws and customs
- We are continuously adding to our offering through software development
- Our customs team attends regular training from accredited bodies to ensure we are always up to date with compliance and other changing requirements.
